The Middletown, Pa., Journal recently issued a boom number of that enterprising paper. The edition is a credit to the office in which it was executed. The Heptasoph's excursion to Lake Lodore Wednesday brought together many members of the order from all parts of the Lackawanna valley, and some from Honesdale, White Mills and Hawley. For some time it has been noticed that the speed mania has been getting a firm grip on some of our enthusiastic motorists and in some instances they cannot curb their inclination to speed within the borough limits and even upon the main street of our town. It is also known that some car owners speed their cars around corners and fall to notify pedestrians of their approach by the toot of their horn. These practices on the part of automobile owners have been going on for some time and frequent mention has been made of the fact. Just why there has not been anything done is not known but probably it is not the fault of the authorities but of the residents who know of the violations and fail to report them. The borough ordinance limits the speed of automobiles to 12 miles an hour. The limit in Texas township is 24 miles an hour. It is necessary for the safety of borough residents that this ordinance against speeding be recognized and the sooner it is so the better it will be for all concerned.
